We specialize in Epicor ERP implementations for the following industry verticals

Discrete Manufacturing & Fabrication

Manufacturers face constant pressure to produce a top-quality product on time, every time. Economic fluctuations, skilled labour shortages and market governance and compliance mandates add to the complexities that manufacturers face every day. Striving to reduce costs and increase profitability while remaining competitive is no easy task. Leveraging EPICOR, we enable manufacturers to anticipate the future needs of today's agile manufacturing environments.

[Know more](#)

EPICOR
Platinum Partner

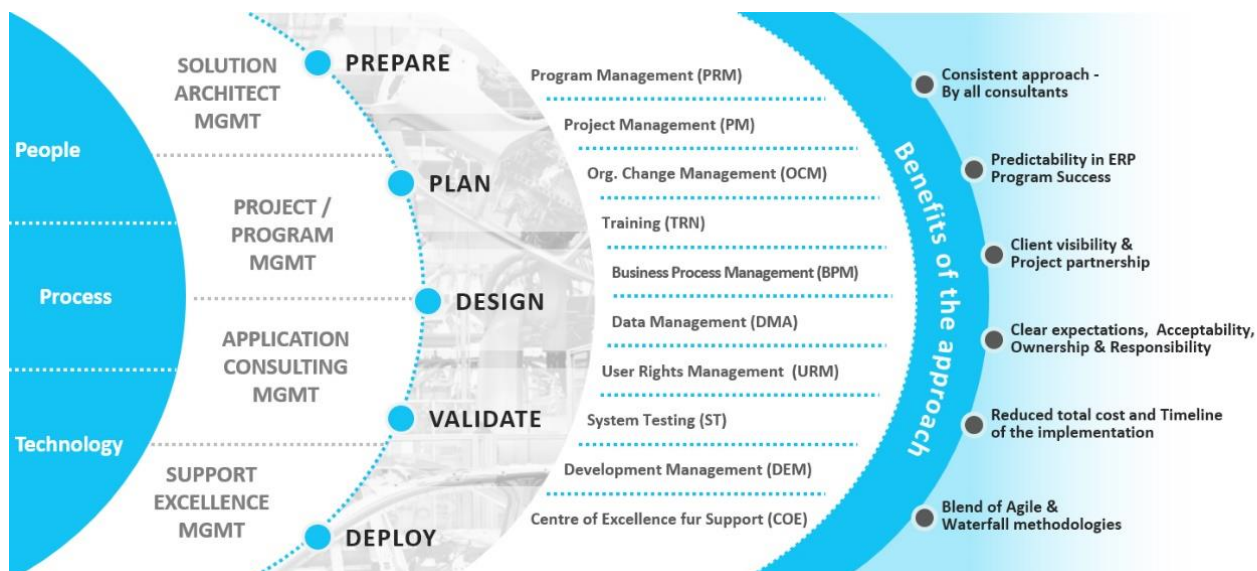

RheinBrücke 4-Pillar framework leveraging e-Fusion methodology

Using our 4-Pillar approach and our expertise in Epicor implementation services, we mould Epicor ERP to fit your business needs. We build referenceable and happy customers by delivering high performance and best in class Epicor services.

e-Fusion methodology - Execution Approach and Stages

As per to our redefined methodology an Epicor business transformation life cycle can be divided into 5 stages and 10 activity deliverables as represented below. All these activities fall under our guiding principle, the 4-Pillar architecture

Customer Speak

"Thank you for the continued good work on the ERP and Supply Chain project. I appreciate how you leverage the teaming with cross cultural teams with low cost geography for developmental resources while not compromising on the quality of deliverables to business..."

Massimiliano A. Milani
Director Europe & Africa at Federal Mogul, Antwerp, Belgium

"I had been using RheinBrücke team as my extended arm for some time now and I have really come to appreciate their depth of technical and functional knowledge of the product and their commitment to our end customers' needs. They react quickly to new challenges and are always there for me to rely on."

Craig Stephens
Vice President-International Consulting at Epicor Software, United Kingdom

"We have been working closely with RheinBrücke to roll out our Power-plant analytics solution. We were able to very quickly implement this solution that gives us holistic visibility of the plant performance."

Rajesh Zoldeo
Chief Commercial Officer, TPCIL & Sembcorp Gayatri Power Projects Ltd.
